

WHAT IS CLAIMED IS:

1. A process for mounting a plurality of parts to a cable in mounted positions and in mounted attitudes determined respectively for the parts, wherein information for the mounting of each of the parts is marked on the cable before the mounting of the parts.
2. A process for mounting parts to a cable according to claim 1, wherein the information includes a name, the mounted position and the mounted attitude of each of the parts.
3. A process for mounting parts to a cable according to claim 1 or 2, wherein the marking is carried out at a step of cutting the cable into a predetermined length.
